

The International Conference of Neuropsychotherapy

From Science to Facilitating Change

23 May 2017 - Preconference Workshops

8.00-9.00	Arrival and Registration	Location
9.00 - 12.30	Presenter: Adj Prof Pieter Rossouw	Education Centre
	Topic: The Brain and Pain	Seminar Rooms 1 & 2
10:30-11:00	Morning Tea Break	
11:00-13:30	The Brain and Pain	
13.30-17.00	Presenter: Dr Roger Mysliwec	
	Topic: The Neuroscience of Eating Disorders	Seminar Rooms 1 & 2
15.00 - 15.30	Afternoon Tea break	
15:30-17:00	The Neuroscience of Eating Disorders	

The International Conference of Neuropsychotherapy

From Science to Facilitating Change

Brisbane 24-26 May 2017

24 May 2017 – Day 1 Morning

8:00-9:00		Arrival and Registration	Location
9:00 -9:10		Conference Master of Ceremonies Rita Princi Welcome	Auditorium (Education Centre)
9:10.9:20		Acknowledgement of Country <i>Elwyn Henaway</i>	
9:20 – 10:30	Welcome and Opening President Keynote	Adj Prof Pieter Rossouw Welcome from the President	
		Keynote Topic: The Neuroscience of Engaging. A New Paradigm for a Changing World	
10:30-11:00		Morning Tea Break	
11:00-12:30	Keynote 1	Keynote Presenter: A Prof Judith Murray Keynote Topic: Grief: Understanding the Broken Heart and Mind	Auditorium (Education Centre)
12:30 – 13:30		Lunch	

24 May 2017 – Day 1 Afternoon

Location	Seminar Room 1 (Education Centre)	Seminar Room 2 (Education Centre)	Conference Room 2 (CSDS Centre)	Conference Room 3 (CSDS Centre)	Auditorium (Education Centre)
Session Chair	Jonathan Wills	Dr David Collins	Dr Sue Stefanovic	Davinia Glendenning	Lisa Stevens
13:30 – 14:10	Peter Kyriakoulis	Samantha Hewlett	Sunica Schreiner	Irene Drozdovskii	David Williams
Topic	The Implications of the Diving Response in changing Carbon Dioxide (CO ₂) Sensitivity in Individuals diagnosed with Panic Disorder	Why We Do What We Do; How Neuroscience Informs the Clinical Practice of Occupational Therapy	When the map does not fit the territory: Neuropsychotherapy as a critical underpinning in the delivery of manualised intervention	How music influences both pathology and wellbeing in older adults: A neuroscientific perspective	Putting wise heads on developing shoulders: Exploring the art of coaching via the neuroscience pathway of attachment and bottom-up processing
14:20 – 15:00	Daren Wilson	Maria Kostyanaya	Tamara Penny and Anjali Naran	Claire Stephensen	Campbell Thompson
Topic	Structured Image Framework Theory (SIFT): A neurologically based therapeutic technique to understand and process the traumatic experience	Developing capacity in a compromised environment: A forensic study from a neurobiological perspective	The Emotional Trap: Dealing with Emotional Stuckness in Family Mediation - A neuropsychotherapeutic perspective	Music on the brain: A collaboration between neuropsychotherapy and music therapy	Two Brains at the Olympic Games – Neuropsychotherapy interventions within the national sports system of a South Pacific nation
15:00 – 15:30	Afternoon Tea Break				

24 May 2017 – Day 1 Afternoon continues

15:00 – 15:30	Afternoon Tea Break				
Location	Seminar Room 1 (Education Centre)	Seminar Room 2 (Education Centre)	Conference Room 2 (CSDS Centre)	Conference Room 3 (CSDS Centre)	Auditorium (Education Centre)
Session Chair	Jonathan Wills	Dr David Collins	Irene Drozdovskii	Davinia Glendenning	Lisa Stevens
15:30 – 16:10	Monika Knausenberger	Ellana Iverach	Eloise O'Reilly	Thedy Veliz	Dr Guy Little
Topic	Trauma spread through generations	The S.A.F.E model and neuroscience: Working together in negotiation	Internet-based interactions and psychological wellness: Is the nature of our online interactions compromising our psychological wellbeing?	The Use of Relational Neuro-Narratives: A parent neuro-psychotherapy relational approach to working with young clients	Brain-wise Collaboration in Sport Injury Rehabilitation: A Case Example
16:20 – 17:00	Dr Trisha Stratford	Melisa Kaya and Pieter Rossouw	Jane Wolf	Dave Misso	Stephen Rendall
Topic	Therapeutic Alliance: Effect on the therapeutic process	Bullying Taking Control: The Science, Development and Application of a Tool to Address School Age Bullying	Neuroscience and the Legal system – a case of Uncontrollable Incongruence?	Utilising neuroscience as a means to a different end in couples therapy	Applied Neuro-psychotherapy with adolescent athletes and their parents

25 May 2017 – Day 2 Morning

8:00-9:00	Early morning Tea/Coffee		Location
	Chair: Pieter Rossouw		Auditorium (Education Centre)
9:00-10:30	Keynote 2	Keynote Presenter: Rita Princi Keynote Topic: Misophonia- When sound is not fun. A Neuroscience perspective	
10:30-11:00	Morning Tea Break		
11:00-12:30	Keynote 3	Keynote Presenter: Dr Roger Mysliwec Keynote Topic: The Intriguing Nature of Eating Disorders	Auditorium (Education Centre)
12:30 – 13:30	Lunch		

25 May 2017 – Day 2 Afternoon

Location	Seminar Room 1 (Education Centre)	Seminar Room 2 (Education Centre)	Conference Room 2 (CSDS Centre)	Auditorium (Education Centre)	Conference Room 3 (CSDS Centre)
Session chair	Irene Drozdovskii	Maria Kostyanaya	Davinia Glendenning	David Williams	Lisa Stevens
					13:30-15:00
13:30 - 14:10	Libby Taylor	Jenny Venter	Dr Dionne Schnider	Dr Sue Stefanovic	Mini Workshop 1 Presenter: Dr Carol Newnham Topic: Brain Development in Preterm Infants and Children
Topic	My Brain My Journey A Neuroscience Tool for Clients and Clinicians	The need for a neuroscience approach to work based support for depressed employees: A literature review	Neuroscience Toolkit for Clinicians	Neuropsychotherapy and Hypnosis: do they work together?	
14:20 – 15:00	Kobie Allison and Dr Angelo De Gioannis	Dr Judith Chapman	Tania Blomfield	Karen Ferry	
Topic	Self-care and Self-compassion among Therapists: Enhancing Self-Regulation and Working Alliance	Should corporate leaders encourage induction and initiation rituals?	Neuropsychotherapy, Attachment, and the Social and Cultural Atom: A Case Study	Benson the Boxer – Development of a Neuroscience based tool to assist young people to deal with the aftermath of trauma	
15:10-16:30	IACN Annual General Meeting and Forum Auditorium				
Chair: Pieter Rossouw (President) and Jonathan Wills (Secretary)					
16:30-	Conference Celebration Function EVERYONE INVITED Education Centre Foyer				

26 May 2017 – Day 3 Morning

8:00-9:00	Early morning Tea/Coffee		Location
	Chair: Pieter Rossouw		Auditorium (Education Centre)
9:00-9:45	State of the art lecture 1	Speaker: Lisa Stevens Topic: Neuropsychotherapy in Sport: Working with individuals and Teams - A neuropsychotherapy approach to maximise performance and wellness	
9:45-10:30	State of the art lecture 2	Speaker: Nigel Denning Topic: Why do men hurt the people they love?	
10:30-11:00 Morning Tea Break			
11:00-11:45	State of the art lecture 3	Speaker: Dr David Collins Topic: BRAiNgro: The pilot of a brain based whole of school wellbeing program in Australian schools	Auditorium (Education Centre)
11:45-12:30	State of the art lecture 4	Speaker: Prof Dirk Geldenhuys Topic: Toward the brain-fit organisation: A case for Organisational Neuroscience	
12:30 – 13:30 Lunch			

26 May 2017 – Day 3 Afternoon

Location	Seminar Room 1 (Education Centre)	Seminar Room 2 (Education Centre)	Conference Room 2 (CSDS Centre)	Conference Room 3 (CSDS Centre)	Auditorium (Education Centre)	Conference Room 1 (CSDS Centre)
Session Chair	Jonathan Wills	David Williams	Dr Sue Stefanovic	Dr David Collins	Rita Princi	Irene Drozdovskii
						13:30-15:00
13:30 – 14:10	Davinia Glendenning	Dr Geraldene Mackay	Paul Potgieter	Yu Takizawa	Christopher Pearson	Mini Workshop 2 Presenters: Claire Edwards, Bernadine Carroll & Dianne Tucker Topic: Expressive therapies (Art Therapy and neuroscience)
Topic:	Neuroscience and Resilience – New Directions in Coaching	Incorporating a Neuro-psycho-therapeutic Framework into a Critique of Human Research Ethics	Brain based model to resolve conflict	Exploring the benefits, barriers and adjustments required for adopting neuropsychotherapy in Japanese Contexts	Reviewing Misophonia and its Treatment	
14:20 – 15:00	Dr Johanna Lynch	George Dieter	Jan Sky	Dr Charles Krebs	Christopher Pearson	
Topic:	Consultative workshop: Sense of safety as a unifying language in mental health provision?	Boundaries, safety and control within a Neuro-psycho-therapeutic approach	Navigate the social landscape of the brain	LEAP®: The Learning Enhancement Acupressure Program: Correcting Learning and Memory Problems with Acupressure and Kinesiology	Misophonia Discussion Group	
Chair: Rita Princi						Location
15:15 – 16:00	Closing President Keynote	Keynote Presenter: Adj Prof Pieter Rossouw Keynote Topic: Doing Neuropsychotherapy – Observations and Directions				Auditorium (Education Centre)
